

NEU ZINTRAX is a highly concentrated flowable zinc formulation containing 8-10 times more zinc than a typical liquid chelate and 3-4 times that of sulphate or nitrate based liquids. The fluid formulation makes it easy to measure, pour and mix the product in the spray tank, while giving the highest nutrient content. The product is specifically formulated to provide maximum crop safety. This helps to ensure that application will not cause damage to the crop which can reduce its market value. The purity of raw materials selected for this product makes it safe for application to the crop and helps ensure that the harvested produce will not be rejected at any point in the supply chain. A controlled particle size gives quick uptake and long lasting effect. This reduces the need for repeat applications saving both time and money. A broad tankmixability makes it easy to co-apply the products with agrochemicals, saving both time and money. Just as important, free access to Tankmix information online or via smart phones makes it quick and easy to check whether products can be co-applied.

#### BENEFITS;

- Formulated for safe application at critical growth stages to satisfy crop requirements
- Widely tank mixable with other crop sprays.
- Proven, reliable performance. Tried and tested on a wide range of crops around the world
- Easy to use liquid formulation. Pours and disperses easily and quickly into the spray tank.
- High nutrient content means lower application rates reducing handling time and waste packaging.

#### STORAGE;

Keep in a cool, dry chemical store, out of reach of children and livestock. protect from frost and other climatic extremes, (temperatures, exceeding 40 C). Dispose of contents and container in accordance with all local, regional, national and international regulations.

#### DIRECTION FOR USE;

Mix the product thoroughly before use. Slowly add the product to the tank, via the induction hopper, whilst agitating. Top up with water and continue to agitate until spraying is completed.

#### PRECAUTIONS;

Only to be used on protected crops if specifically listed. Avoid application under extremes of climate, e.g. rapid drying conditions, extremely slow drying conditions, frost, rain or when frost and rain are anticipated. Wear suitable gloves and face shield when handling this product. Clean all equipment before and after use.

# NEU ZINTRAX

## Liquid EC Fertilizer

#### Content ;

Zinc (Zn) **39,5%**  
Chloride Free

**For All Fruits , Vegetable  
Flowers and Lawn**

## EC FERTILIZER

%100 Water Soluble Fertilizer

No Chlorine  
Low pH degree
